

Hepatitis C: Funding Opportunity Announcement

Through the Corporate Grants program, Gilead supports the efforts of community-based organizations, public health entities and similar umbrella organizations to educate their constituents and healthcare providers about the impact Hepatitis C exerts on individuals and communities. Specifically, Gilead is looking to support organizations focused on addressing the challenges associated with diagnosing individuals with hepatitis C and overcoming personal and systemic barriers to accessing care.

Selection Criteria

Gilead encourages proposals from organizations that can demonstrate the following:

- Ability to clearly state how existing barriers to care can be overcome through case management, harm reduction and other types of programs.
- A focus on novel ways to engage individuals struggling with drug addiction and those who are co-infected with HIV/HCV while at the same time aiming to establish long-term, sustainable partnerships with public health stakeholders in an effort to introduce new paradigms of holistic care.

Eligibility

- Organizations must be classified as a not-for-profit and headquartered in the United States with an interest in public health, including but not limited to providing social services, education or advocacy for "underserved" or "hard to reach" populations.

Application Process

- Applications are accepted on a continual basis. Decisions are typically communicated within 12 weeks from the submission date.
- Questions about the announcement or application process should be submitted to grants@gilead.com
- Organizations are required to submit their requests using the online application form, which can be accessed by clicking <http://grants.gilead.com/>. Please review the grant Terms and Conditions prior to submitting an application.

Program Specifics

- The program provides awards for a one-year period.
- Application to the Corporate Grants program is not a promise of funding.

Gilead reserves the right to approve or disapprove any application. Award of a grant in any one year does not infer that a subsequent grant will be awarded without further application and approval.

About Gilead Sciences

Gilead Sciences, Inc. is a biopharmaceutical company that discovers, develops and commercializes innovative therapeutics in areas of unmet medical need.
